

Approved for trade

Ideal for pharmacists, chemists, jewellers, and for use in other commercial applications, Highland approved balances offer important features and functions needed for applications requiring a legal-for-trade weighing device. With EC Type/OIML approvals, the new Highland balance offers multiple weighing units – carats, grams or kilograms – plus RS-232 and USB interfaces, rechargeable battery and AC operation, capacity tracker, and more. An innovative design conveniently allows multiple balances to be stacked for easy storage when space is limited.

Key Accessories

ATP Thermal Printer

Easy-to-use features combined with quick set-up equals a truly versatile thermal printer. A single push-button feed key and three easy-to-read LED indicators make operation simple.

Kensington[®] Cable Lock

The security lock and cable fits the built-in lock attachment on balances and scales, and loops around an object to secure your balance in place. The flexible steel cable is difficult to cut, and the combination lock allows users to choose a combination number for added security.

Adam DU Software

Adam DU software connects a balance to the laboratory network, helping to achieve seamless data collection, transfer and analysis. DU features an easy-to-use interface with a main command window, allowing users to quickly collect information from up to eight Adam balances simultaneously using RS-232 or USB connections.
